EXPERIENCE

越岭教育 Ace Academy

Brooklyn, NY

Volunteer

June 2025 – Present

- Supported the launch of 越岭教育 Ace Academy tutoring center by distributing 60+ promotional flyers across multiple neighborhoods to increase community awareness and enrollment
- Engaged with local residents to provide information about tutoring services, programs, and enrollment details
- Assisted with on-site event setup and organization during the center's opening period
- Contributed to marketing and outreach efforts to help establish the center's presence within the community

Summer Youth Employment Program

Brooklyn, NY

Researcher and Data Analyst

July 2024 – August 2024

- Designed and delivered a research-based presentation examining the environmental and human impacts of climate change-driven sea level rise
- Conducted research on rising sea levels across regions including Asia and North America, analyzing global and regional trends
- Synthesized complex data into clear, accessible insights tailored for a high school audience
- Presented research findings to an audience of 130+ students, educators, and community members

Summer Youth Employment Program

Brooklyn, NY

Sales and Marketing Specialist

July 2023 – August 2023

- Collaborated with cross-functional team members to develop a comprehensive charity-focused business plan
- Researched and identified grant opportunities to support funding and long-term sustainability goals
- Developed promotional strategies, including branded merchandise (e.g., cups, T-shirts) and marketing materials to increase community awareness
- Contributed to logo development and brand identity creation using design inspiration and Canva
- Delivered a formal presentation to an audience of 120+ attendees, competing against 20+ business plans

EXTRACURRICULAR

NASA DWU: High School Engineering Challenge

New York, NY

Member

September 2025 – Present

- Contributed ideas to the design phase of our air vehicle that can be used to investigate and address the invasive species, Spotted Lanternfly
- Researched and documented the agricultural and economic impacts of Spotted Lanternflies to support project analysis
- Developed and presented strategies for our air vehicle detection and sampling of Spotted Lanternfly populations
- Evaluated and recommended equipment necessary to support the air vehicle operation for both in-flight and during ground support

Intrepid Museum

New York, NY

Hackathon Participant

Nov 2023 – Nov 2023

- Built a climate change awareness webpage using JavaScript on Code.org, highlighting its impacts and mitigation strategies. Presented the webpage to 20+ peers, explaining key concepts and solutions for climate action.

Coding & Game Design Club

New York, NY

Founder & Leader

September 2025 – Present

- Founded and led a coding club with 20+ members, fostering interest in programming and technology
- Introduced fundamentals of coding through block-based platforms such as Snap! and Microsoft micro:bi.
